Implementation of Skill India Mission

Skill India Mission:

In a rapidly changing global economy, equipping the workforce with the right skills is imperative for any nation's growth and development. The Skill India Mission is an ambitious initiative launched by the Government of India in 2015 to empower the country's workforce with the skills necessary to enhance employability, bridge the skills gap, and drive economic growth.

primary goal of the Skill India Mission is to provide vocational training and skill development opportunities to a significant portion of India's population, mainly focusing on its large youth demographic. In this article, we will delve into the details of the Skill India Mission, its objectives, achievements, and its impact on the country's workforce.

Scheme Overview:

Skill India, a Government of India initiative, aims to empower youth with job-ready skills, enhancing employability and economic growth. The National Skill Development Mission, chaired by the Prime Minister, oversees this effort. It is a kind of umbrella scheme.

Skill India offers courses in 40 sectors aligned with industry and government standards.

Launch Date: July 15, 2015

Objective:

To train and develop industrial and entrepreneurial skills among Indians Target: Train a minimum of 300 million skilled people by 2022

Scope:

Involves every segment of Indian society, local and foreign companies, and governments
Scale: World's largest initiative to train manpower in a single country or geographical location

Government Involvement:

Every ministry of the Central government is involved Skill India Mission Objectives The Skill India Mission has a primary objective of providing market-relevant skills training to over 400 million young individuals in India by the year 2023. This mission seeks to:

- Foster the growth of talents among Indian youth.
- Enhance skill development in established sectors and identify emerging areas for skill development.
- Bridge the gap between industry-required skills and the skills possessed by the workforce to boost employment opportunities.

Implementation of the Skill India Mission

The implementation of the Skill India Mission is facilitated through a structured institutional framework led by the Ministry of Skill Development and Entrepreneurship (MSDE). This framework is organized into three tiers, each with specific roles and responsibilities:

Governing Council:

This is the highest level of the institutional mechanism and provides policy guidance and strategic direction for the Skill India Mission.

Steering Committee:

The Steering Committee plays a crucial role in overseeing the implementation of the mission and ensuring that it aligns with its objectives and goals. Mission Directorate (including an

Overseas Employment:

It aims to facilitate employment opportunities for skilled Indian workers in international markets, enhancing their global employability.

Sustainable Livelihoods:

This sub-mission seeks to create sustainable livelihoods by promoting entrepreneurship, self-employment, and skill-based income generation activities.

Leveraging Public Infrastructure:

It involves utilizing existing public infrastructure and resources to support skill development programs efficiently. These sub-missions collectively work towards achieving the Skill India Mission's overarching goals of enhancing employability, fostering skill development, and promoting entrepreneurship among the Indian population.

Skill India Mission Key Schemes:

The Skill India Mission encompasses several vital components that address various aspects of skill development:

Pradhan Mantri Kaushal Vikas Yojana (PMKVY):

PMKVY, a flagship program of Skill India, offers short-term skill training and certification to youth across diverse sectors through vocational training centres like Industrial Training Institutes (ITIs). The government covers the entire cost of training and assessment fees, making skill development accessible and affordable for a wide range of Indian youths, including those from diverse socio-economic backgrounds.

Sector Skill Councils (SSC):

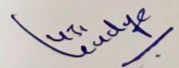

These autonomous industry-led bodies, established by the National Skill Development Corporation (NSDC), play a pivotal role in developing occupational standards, qualification bodies, and competency frameworks. They organize programs such as Train the Trainer Programs, skill gap studies, and assessments to certify trainees. Presently, there are 37 operational Sector Skill Councils, each governed by a Governing Council consisting of over 600 corporate representatives.

Skill India Mission Committee

As per the AICTE guideline the Skill India Mission Cell Following members are constituted for the academic year 2024-25. All committee members are here by requested to adhere to norms of State or Central Government.
